

Saddle Horn Ranch is located in Northeastern Utah in the small town of Altamont. It sets at the foot of the high Uintah Mountains at an elevation of 7000 feet. Chad & Gina Marie Stevenson started their registered Angus herd several years ago with the purchase of females from one of the well respected Angus herds in the State, Gina's father Gary Jessen. With the help of there two son's Clint & Kane and daughter Sharrie, they love what the cattle industry is all about. We focus on maternal and growth traits plus carcass merit and calving ease.. The cow has to prove herself on fertility, fleshing, docility, and milk. We are also using

Nationally recognized A.I. sires. We breed A.I to calve in January and February. Our pasture exposed calves come in March and April from our herd sire. The bulls we raise are ready to go to work for you. They are raised at a High altitude. You can also look for our Consignments at the Rocky Mountain Angus Sale in November and The Utah Angus Association Sale in the Spring. We are excited to be a part of the UBIA family. We hope that you will take the time to look at our consignments. If you have questions please call.
